

## Virtual Project Update Information Session CBM Proposed Caledon Quarry

---

### Virtual Information Session – Thank you for joining us!

- This virtual information session is being hosted via GoToWebinar. We recommend using Google Chrome or Microsoft Edge browser. Internet Explorer is not recommended.
- The virtual information session will be two hours in duration.
- CBM and the project team will provide a presentation with updates about the proposed Caledon Quarry. The presentation will be 30 to 45 minutes in duration. Following the presentation, CBM will have a question and answer (Q&A) portion for the remainder of the session.
- The presentation will start shortly after the scheduled start of the virtual information session. As a result, we kindly ask that you join the virtual session on time.
- The slide deck shared during the presentation will be made available on the Project website after the virtual information session has been completed.
- CBM looks forward to hearing your questions and having a meaningful and respectful discussion with attendees.
- Please note that the virtual information session will be recorded.
- If you have issues registering, please reach out to [CBMCaledonQuarry@golder.com](mailto:CBMCaledonQuarry@golder.com).

We have also prepared a hand-out on the following pages that provides guidance on how to join the virtual information session once you have registered.

## GoToWebinar: How-To Guide

---

### Joining the Virtual Information Session

Once you have registered you will receive an **email confirmation** with relevant event details.

**To Join the Webinar**, please click Join Webinar link on the email confirmation.

### How To Join The Webinar

Wed, Apr 7, 2021 7:00 PM - 9:00 PM EDT

Add to Calendar: [Outlook® Calendar](#) | [Google Calendar™](#) | [iCal®](#)

**1. Click the link to join the webinar at the specified time and date:**

[Join Webinar](#)

*Note: This link should not be shared with others; it is unique to you.*

Before joining, be sure to [check system requirements](#) to avoid any connection issues.
